

Further to our communiqué dated 5 March regarding the MYBA Charter Show, we would like to inform you that the MYBA Board held a conference call yesterday to further discuss the holding of the MYBA Charter Show in Barcelona in the current environment. The Covid-19 virus situation has evolved rapidly over the last few days and, unfortunately, developments have not been favourable. The Board therefore finds itself in a Force Majeure situation vis-à-vis its contractual obligations and considers it is best not to proceed in these unprecedented circumstances.

This is undoubtedly very disappointing news, however, taking into consideration the information that is currently available and the health of our Members and all Show participants being one of MYBA's key priorities, it is not possible to ensure the Show is organised in the safe and productive environment that we are recognised for by the superyacht industry.

The MYBA Charter Show team will be sending further details to those who have already registered and working to minimise any inconvenience caused by this unfortunate development.

Thank you for your patience while we were assessing the situation and we look forward to a great Show in 2021.

Kind regards,
MYBA Board
